

## The Value of HIE to Comprehensive Primary Care Plus (CPC+) Participants

### What is HSX?

HealthShare Exchange (HSX) is a 501(c)(3) health information exchange (HIE) serving the greater Philadelphia region.

- The HSX Mission is to provide secure access to health information that enables preventive and cost-effective care; improves the quality of care; and facilitates the transitions of care.
- The HSX Vision is to build a trusted community of healthcare stakeholders collaborating to deliver better healthcare to patients.

HSX current membership includes acute care hospitals, health plans, post-acute care facilities, behavioral health organizations, accountable care organizations, clinically integrated networks, independent ambulatory practices and federally qualified health centers.

### What is HSX's role in the CPC+ Program?

HSX was selected by **Independence Blue Cross (IBC) and Aetna, Inc.** as the **data aggregator** for the Greater Philadelphia CPC+ Program. As a partner in this program, HSX is responsible for **processing the data, generating and providing access to quarterly reports** for participating CPC+ practices.

The reports will be generated from **claims data** provided by IBC, Aetna and the Centers for Medicare & Medicaid Services (CMS) for the **Medicare population** and will support **CPC+ quality measures that support process, utilization and outcome requirements.**

Both **Track 1 and Track 2** CPC+ practices will be given access to **quarterly performance reports** through the **Performance Reporting Portal (PRP)**. HSX CPC+ Service went live in **November of 2018**.

### Services Offered to CPC+ Participants

HSX services support the following CPC+ Care Delivery Requirements:

- ✓ Care Management
- ✓ Comprehensiveness and Coordination

#### PERFORMANCE REPORTING PORTAL (PRP)

- Provides access to quarterly performance reports derived from claims data.
- Ability to review measures within the reporting period, view individual and practice level data and monitor trends over time.

#### Benefit:

- Access **performance data** that supports CPC+ care delivery requirements.

## HSX CPC+ Program Reporting Measures

Reports will be available for the eight (8) claims-based CPC+ quality measures listed below. CPC+ Practices will be able to access reports using the Performance Reporting Portal (PRP).

CMS ID#	NQF#	Measure Title
<a href="#">CMS156v5</a>	22	Use of High Risk Medications in the Elderly
<a href="#">CMS131v5</a>	55	Diabetes: Eye Exam
<a href="#">CMS125v5</a>	2372	Breast Cancer Screening
DMC04		Appropriate Monitoring of Patients Taking Long-term Medications
DMC17		Statin Therapy for Patients with Cardiovascular Disease
		Inpatient Utilization*
		Emergency Department Utilization*
	1768	Plan All Cause Readmission*

\*Super protected data such as STD, HIV, Substance Abuse, Substance Abuse with Mental Disorder and Mental Disorders were not included in the generation of these measures.

### ENCOUNTER NOTIFICATION SERVICE (ENS)

- By subscription, patient encounters (i.e. ED, inpatient and post-acute care admits and discharges) are sent to subscribing providers in real-time or in a summary list.
- Recipients choose how often they will be alerted and the workflow used to receive notifications.

#### Benefit:

- Receive **timely encounter notifications** when patients are admitted, transferred or discharged from a facility or emergency department (available by subscription).
- Supports the **Care Management** and **Comprehensiveness and Coordination** requirement that patients with ED visits receive a follow up interaction within one week of discharge and that providers identify hospitals and EDs responsible for the majority of patients' hospitalizations and ED visits, and assess and improve timeliness of notification.

### CLINICAL DATA REPOSITORY (CDR)

- Search the CDR for longitudinal clinical information about patients provided by acute-care, ambulatory and post- acute care facilities.
- Enables access to robust clinical information such as problems, allergies, medication, immunizations and labs for patients across the care continuum.

#### Benefit:

- Access **historical patient data** to inform treatment and care plans.

## How to Participate in HSX

- Nominal one-time administrative fee and annual subscription fee based on contracted services.
